ANTI MOLOTOV

THROWAWAY FIRE EXTINGUISHER, A high-grade product developed for extinguishing fires of classes A, B, and C (European Classes) on the purpose of faster, safer and more effectively than its beginning. The only thing the user needs to do is throwing our product into the fire. When **ISONEM ANTI MOLOTOV,** which is in a special plastic package, is thrown into the fire, the plastic container breaks and extinguishes the fire immediately. It is a liquid extinguishing agent and when thrown into the fire, it releases into the atmosphere. The heat of fire evaporates the extinguishing agent and a chemical reaction starts. By releasing a large amount of carbon dioxide, it chokes the fire, cuts its contact with oxygen and thus extinguishes the fire. In addition, the chemical reaction introduces a cooling agent. In addition, the chemical reaction introduces a cooling agent and this reduces the temperature of the burning material and thus other chemical foams step in and prevent the materials in the area from re-flaring.

USAGE AREAS
- Ideal use areas are closed and open areas.
- It can be used for any initial fires.
- It is a fire extinguisher which is very suitable for ships, houses, schools, vehicles and military facilities, gas stations, factories.

FEATURES
- Shelf life of 5 years, do not need any maintenance
- No annual inspection or refilling
- Easy operation; just THROW it, no difficulty, suitable for all ages
- Very light (850 g).
- Suitable for A, B, C type flames.
- Portable, no need to approach the fire.
- It is rescue & evacuation tool.
- Does not release too much smoke and does not block the escape area.
- It is environmentally friendly, does not contain toxic substances.
- Fast discharging: 1-5 seconds
- Easily thrown into the fire and breaks down itself to extinguish the fire.
- Does not require cleaning after use, no maintenance required.

TECHNICAL SPECIFICATIONS

Content	: Water based
Color	: Slight Blurred
Density (25°C, g/mL)	: 1.07 – 1.17
Solvent	: Water
pH (25°C)	: 8.0 - 8.9
Extinguishing Capacity	: 8 - 10 m^3 (Class A)

PACKAGING & STORAGE

Packaging	: 850 g
Storage temperature (°C)	: 5 - 55 °C
Shelf life	: 5 years
Storage condition	: Store in a dry and cool place.

ATTENTION

- More effective on initial fires.
- Do not expose to direct sunlight.
- Keep out of reach of infants and small children.
- In case of contact with skin or eyes, rinse immediately with water.

IMPORTANT

It is rescue & evacuation tool. The liquid extinguishes the flame where it comes into contact with fire. The determined fire classification is according to the European (EN) classification.

APPLICATION CONDITIONS and RISKS

Things to consider during and after the application	Depending on the size of the fire and ambient conditions, try to extinguish with more than one of the fires that do not extinguish with **ANTI MOLOTOV.**
Other ISONEM products recommended	X
Application temperature	X

General Features

So light (850 gr)

Easy to Use

Contains No Toxic Substances
