## Disposable Type Fire Extinguisher

A superior product developed for extinguishing class A, B and C fires (European Classes) faster, safer and more effectively at the beginning. The only thing the user needs to do is throwing our product into the fire.

When **ISONEM ANTIMOLOTOV**, which is in a special plastic package, is thrown into the fire, the plastic container breaks and extinguishes the fire immediately. It is a liquid extinguishing agent and when thrown into the fire, it releases into the atmosphere. The heat of fire evaporates the extinguishing agent and a chemical reaction starts. By releasing a large amount of carbon dioxide, it chokes the fire, cuts its contact with oxygen and thus extinguishes the fire. In addition, the chemical reaction introduces a cooling agent. This reduces the temperature of the burning material and thus other chemical foams step in and prevent the materials in the area from re-flaring.

### USAGE AREAS

- Ideal use areas are closed and open areas.
- Can be used for any initial fires.
- It is a fire extinguisher which is very suitable for ships, houses, schools, vehicles and military facilities, gas stations, factories

### FEATURES

- Shelf life of 5 years, do not need any maintenance
- No annual inspection or refilling
- Easy operation; just THROW it, no difficulty, suitable for all ages
- Very light (850 g).
- Suitable for A, B, C type flames.
- Portable, no need to approach the fire.
- Rescue & evacuation tool.
- Does not release too much smoke and does not block the escape area.
- It is environmentally friendly, does not contain toxic substances.
- Fast discharging: 1-5 seconds
- Easily thrown into the fire and breaks down itself to extinguish the fire.
- Does not require cleaning after use, no maintenance required.

### TECHNICAL SPECIFICATIONS

**Content** : Water based  
**Density (g / mL, 20 ° C)** : 1.07 - 1.1  
**Solvent** : Water  
**pH** : 8.0 to 8.9  
**Extinguishing Capacity** : 8 - 10 m<sup>2</sup> (Class A)

### ATTENTION!

More effective on initial fires.  
Do not expose to direct sunlight.  
Keep out of reach of infants and small children.  
Do not consume.  
In case of contact with skin or eyes, rinse immediately with water.

**GROSS WEIGHT** : 850 GR

**General Features**

- No Toxic Substance
- Shelf Life : 5 Years
- Light (850 gr)
- Easy Operation

### Application Conditions and Risks

<b>Storage temperature</b>	Between +5 and +45°C
<b>Application requirement</b>	It is much more effective at the initial stage of fire.
